

Cypress 8x25 Binocular

Item no:71350

The Cypress Series, new from Celestron, is an excellent beginner binocular with high-quality optics at an affordable price. Cypress reverse porro models feature

BaK-4 prisms for maximum light transmission and multi-coated optics. You'll enjoy bright, sharp, high-contrast views through these binoculars. The porro prism design makes Cypress easy to hold, even for those with small hands. The smaller models are an excellent option for children.

Cypress is waterproof and the housing is purged with dry nitrogen gas to prevent fogging. The binocular is constructed to withstand harsh treatment, while keeping weight to a minimum. For a sturdy, entry-level binocular, Cypress is the ideal choice.

Cypress 8x25 Binocular General features

- **BaK-4 Prisms:** Increases contrast and resolution for sharper more detailed images.
- **Multi-Coated Optics:** Increased light transmission through the optical path for brighter images.
- **Waterproof and Fogproof:** Nitrogen purged to prevent internal fogging of the lenses.
- **Compact and Lightweight:** Reverse porro design fits in a pocket or glove box. Easy to carry on long excursions.
- **Wide Field of View:** Allows user to quickly acquire the subject being viewed and easily follow subjects when they move.
- **Twist-up Eyecups:** Multiple stops for correct positioning of the eyes for comfortable viewing with or without eyeglasses.
- **Polycarbonate frame:** Strong and durable polycarbonate body. Provides structural integrity while keeping the weight to a minimum.
